## Sole-3 update: weather update

---

Cooper Energy (ASX: COE) advises the Bureau of Meteorology has forecast weather conditions outside operating limits for the forthcoming weekend. In such weather conditions safe operations of the Sole flow back cannot be assured and therefore preparations for the flow back have been suspended until the weather forecast improves.

It is expected the weather will result in an interruption to operations of 3 to 5 days.

About Cooper Energy Limited (ASX: COE) is an ASX listed exploration and production company which generates revenue from gas supply to south-east Australia and low cost Cooper Basin oil production. The company is an emerging player in the south-east Australian energy sector holding a portfolio of gas supply contracts and one of the most extensive portfolios of gas-focussed acreage and assets, including well located reserves and resources in the Otway and Gippsland basins. The most significant resource, the Sole gas field in the Gippsland Basin, is currently being developed to provide a new source of gas supply for south-east Australia from 2019
